

16 Days of Activism to End Gender-Based Violence

Public Programme of Events

25th November - 10th December 2025

The **16 Days of Activism Against Gender-Based Violence** is a global campaign set up in 1991 calling for the elimination of all forms of violence against women.

The 16 Days campaign takes place annually between 25th November - 10th December.

Every year, the Dundee Violence Against Women Partnership (DVAWP) works closely together to deliver a number of awareness raising events as part of this campaign. The DVAWP is now part of Protecting People structure, consisting of several multi-agency committees who hold responsibility for strategic planning and oversight relating to all areas of public protection. These include substance use, child protection, adult protection, violence against women, community justice, and suicide prevention.

All Together to prevent and end violence against women and girls.

Reclaim the Night March

Gender based violence continues to silence, control and harm women and girls in our community. It thrives where inequality is allowed to exist. That is why we reclaim the night and march and raise our voices together, to challenge violence in all its forms, to demand accountability, and to advocate for safe spaces that are free from sexism, racism and homophobia.

We march to show every survivor in Dundee that we are here for you.

Location: Outside The Steeple (beside the penguins), City Centre, Dundee.

18:30 Rally cry and beginning of march.

Ending at The Steeple Church for speeches and music.

No booking required but if you can let WRASAC know if you are coming via the link that will be circulated on our socials, in the weeks leading up to the March.
